PRHO	ST. MARTHA'S HOSPITAL, Bangalore	1 March 1993 to 2 April 1994

PERSONAL STATEMENT

Currently working as a Consultant in Emergency Department at Musgrove Park Hospital, Taunton. All my non training and training posts related to EM, other surgical & medical specialities has enabled me to develop excellent clinical, non clinical, managerial and interpersonal skills within the team & multidisciplinary teams.

I believe that my emergency skills and specialist interests will complement the consultant body within Trust and demonstrate commitment to continuing learning and professional development in all areas.

I would like to progress my career with special interest in Airway management, Medico-legal aspects in clinical practice and patient safety in Emergency Department.

Medico-Legal experience:

1. Personal injury Claim: I report about 100 personal injury claims a year to various agencies and independent solicitors before covid and this year about 30-50. I have been practicing PI reporting since 2018.

My Clinic sites cover a wide area of Taunton and south wales in Bristol, Newport (South wales) and Taunton. My Clinic appointments are normally within a week of instruction and submit my reports within couple of days after consultation. I have been rated as highly recommended and preferred consultant by agencies.

I do home visits and prison visits in south wales and southwest of UK.

I have an Disclosure and Barring Service (DBS).

SUMMARY OF CLINICAL EXPERIENCE

ACCIDENT AND EMERGENCY

- * Working in ED has given me an opportunity to develop a variety of clinical skills and become proficient in all emergency procedures required for an Emergency Medicine Consultant.
- * Working in Emergency Medicine at various levels (Staff Grade, Specialty Doctor and a Specialty Trainee) at teaching and university hospitals has given me the best and widest knowledge of Emergency Medicine.
- * Maintaining smooth co-ordinated care of patients, and also monitored and adhered to time targets in patient treatment, referral and appropriate placement is part of my day to day shop floor work.
- * Team Leader in resuscitation of cardiac arrest/ Major trauma patients.

Ultrasound

- * Completed Level 1 Ultrasound finishing school in Dec 2014, provided the opportunity to regularly perform regular FAST/Aortic/ ALS ECHO scans. I mentor junior doctors the use of ultrasound in ED
- * Provide ultrasound for FIB, Femoral block, Aorta, FAST, Central venous access, Peripheral venous access, ALS ECHO is part of my day to day practice.
- * Teach on Thames Valley Ultrasound Course.

PAEDIATRICS

- * Skilled in resuscitation/ care of ventilated, pre-term, very premature/ low birth weight babies.
- * Confident in resuscitating complicated deliveries, including meconium aspiration and severe birth asphyxia.
- * Performed and assisted all routine procedures, including endotracheal intubation, chest drains, Lumbar puncture, cannulation in neonates, etc.
- * Developed counselling and listening skills and was able to establish a rapport with children and their families, and to support parents and staff focused towards the care of children.
- * Confident in diagnosing and managing common clinical conditions like Croup, Bronchiolitis, LRTI, UTI, overdose, DSH and overdose, DKA, etc.
- * Working in SCBU gave the knowledge of newborns and common medical and surgical emergencies of newborn.
- * Identification and management of NAI.

ANAESTHESIA

- * Competent in preoperative assessment, anaesthesia and postoperative care of patients undergoing surgical procedures.

- * Competent in managing airway, Rapid sequence induction, Intubation, Laryngeal mask insertion, Bag mask ventilation.

- * Skills in spinal and in dealing with difficult cases requiring general anaesthesia.

- * Able to assess referrals from other specialties requiring higher levels of patient care.

- * Attended trauma and cardiac arrest calls whilst on call and was an integral part of the team looking after the patient.

ITU

- * Skilled in managing critically ill and intubated patients. Can competently insert arterial line, central venous cannula, percutaneous tracheostomy. Competent in Rapid sequence intubation, flexible bronchoscopy, and lumbar puncture.

TEACHING EXPERIENCE

Teaching allows me the opportunity to transfer skills and knowledge which originally acquired through participation in academic involvement, audit, and the practical experience in various hospital settings and scenarios.

LFE(learn from experience) has taught me the need to be sensitive to students needs, to break complex problems into simple parts, provide detailed feedback, encourage students to help each other and ask questions.

Throughout the periods of teaching activity I have received positive feedback on my teaching approach from students. I am proud of this because I see the provision of high quality teaching as being

important to the consistency of good patient care. I have also been involved in presentations which have all been well received.

Postgraduate Teaching

- * **Clinical Educator:** RCEM and HEE initiative role which gives me an opportunity in teaching like shop-floor teaching like simulation training, CBD, MiniCEX, signing of procedures (DOPS), ESLE and other innovative teaching methods for Higher trainees, SHO, Foundation trainees, ANP and other nursing staff.

- * **College Tutor:** I represent the department for higher trainees in Emergency Medicine for Severn Deanary

- * **Instructor:** Advanced Life Support Course (ALS)
European Paediatric Advanced Life Support Course (EPALS)
Ultrasound: Teach on Thames Valley Emergency Ultrasound Course, approved RCEM EMUS course.

- * **Royal College of Emergency Medicine:**
Ex- Bromley MCEM OSCE course.
RCEM MRCEM/FRCEM examiner.

- * Participated in Postgraduate teaching, training for ACCS trainees, GP trainees, SHO's, ACP's, ENP's and Medical students.

- * ENT postgraduate trainees: Teaching in lectures, seminars, journal clubs, theatres and informal shop floor teachings.

- * As an Anatomy Tutor (Demonstrator) I was involved in teaching first year medical students dissection on cadavers, anatomy teaching in formal lectures.

Under Graduate Teaching

- * Actively involved in teaching undergraduates in scenarios such as tutorials, seminars, clinics, as well as case presentations and providing lectures to medical students.
- * Demonstrated surgical techniques and teaching in theatres.
- * Presented, and participated in surgical training programmes.

Educational and Clinical Supervisor

- * Working as a Consultant I am involved in supervising junior doctors as an ES and CS. Involved in regular supervisor meetings and appraisals.
- * Involved in EM higher trainee ARCP and Educational supervisor for ACP's, ACCS (ED), EM higher trainees of Severn Deanery and Peninsula Deanery.
- * Clinical supervision is my day to day role and giving informal and formal feedbacks like CPD/ MiniCEX/ MSF.

MANAGEMENT AND LEADERSHIP

- * I have developed checklists for use of pentrox in procedural sedation; Protocols for use of SNAP regime; involved in creating a stroke pathway.
- * At Musgrove park hospital, I am the lead for the ED clinical decision unit (jowett ward). I have designed the SOP and implemented changes to be practiced on this ward. I am also liaison for the from ED for the Trust syncope pathway.
- * Paediatric Liaison consultant at Stoke Mandeville Hospital has given me an opportunity to coordinate between two major departments in hospitals and implement changes to improve the way service and care provided to children in the ED. I had the opportunity to design ED cards for children and adolescents.

- * Nominated BMA representative for junior doctors at North Bristol NHS Trust during my tenure as Core Trainee in ITU at Frenchay Hospital, Bristol, 2008 to 2009.
- * Possess good communication/ team skills and believe in maintaining fruitful rapport with patients, patient's relatives, my colleagues and all hospital staff.
- * Nominated Chairperson for the audit meeting of A&E at Prince Philip Hospital, 2008.
- * In-charge of A&E teaching Programmes for junior doctors, 2006-08.
- * Consistently strive for total co-ordination and multi-disciplinary participation in determining best appropriate care for patients.
- * Organised E.N.T. and Radiology monthly meeting at Chesterfield, 2004.
- * Secretary of the Doctors Association, Chintamani, India 2002.
- * Medical Director (Honorary) for not for profit Ashwini Hospital Trust, India, 2001 to 2003.
- * Director of 'Boggaram Seva Trust' which is a medical and educational charitable trust, 2004 – 2010.
- * Organised and participated in free ENT and audiology camps, cardiology camps and general health camps, 1998 to 2003

Liaison role

1. Liaison for the from ED for the Trust syncope pathway/ Stroke management/ at Musgrove park hospital.

2. Lead for CDU/Jowett ward in ED: This was a developing part of ED at Musgrove park and as i took the role I have created a SOP, robust Passport and safety netting. With the changes in CDU we have now appointed a lead nurse who works only in CDU, facilitating excellent management of CDU patients.

3. Paediatric Liaison Consultant: During this role, i had an excellent opportunity to look into the service provision for children at Stoke Mandeville ED. I implemented changes to the approach to children attending ED.
 - a. Introduced and designed the ED cards for children and adolescents.
 - b. Initial triage and management at triage - in line with RCEM recommendation
 - c. Regular monthly meeting with PDU staff and Paediatric consultants
 - d. Liaising with safeguarding team, implemented changes like alerts on medway for children on protection plan
 - e. Review of our performance by regular audits and acting on them to make changes and reviewing outcomes after.

2. ENT/ Max-Fax Liaison at Stoke Mandeville Hospital: These specialities were based in oxford, I had to create referral pathways to these specialties after a detailed consultation with the speciality leads.

RESEARCH AND AUDIT PROJECTS

Quality Improvement Projects

1. ABCDE Handover at Weston General Hospital
2. Paediatric Referral Pathway at Weston General Hospital
3. Radiology request guidance for Junior doctors at Weston General Hospital
4. Admission criteria to CDU a QIP on ALICE score at Musgrove Park Hospital.
5. QIP on SNAP protocol implementation in the treatment of paracetamol overdose in 2020

Clinical Topic Review(CTR)

1. Predictors for massive blood transfusion in Trauma: A clinical topic review towards my FRCEM

Research Project

1. **Comparative Study between autologous temporalis fascia and homologous duramater in myringoplasties.** Research towards attaining D.N.B. (Diplomate in National Board of Examinations), New Delhi, 1999 to 2000. Awarded May 2001
2. Principal Investigator:
 - a. **PRESTO:** A research on POC troponin results by paramedics in the prehospital setting and now comparing the levels to on arrival to ED.
 - b. **HEAD:** A research on patient management presenting with Headache to ED

Audit Projects

1. **Mental health Audit**
Philip Cowburn, Girish Boggaram, Isabel Vielba, Clare Ludlam. BRI 2015
2. **Blood Transfusion Audit**
Lisa Munro-Davies, Girish Boggaram. BRI 2013
3. **Paediatric attendances to Accident and emergency**
Boggaram, R.G. Jones, M, Prince Philip Hospital, Llanelli, 2006.
4. **Direct referrals from audiology**
Boggaram, R.G., Capper, R, Doncaster Royal Infirmary, 2003.

PRESENTATIONS

Regional Presentations

1. **Neonatal surgical Emergencies** at OSEM 2016
Lecture session at the the Oxford conference
2. **Work life balance for trainees working in ED** at OSEM 2016
Poster presentation and 15 minutes presentation
3. **Blood Transfusion Audit poster at BRI. July 2013**
Best poster of the year award.
4. **Paediatric attendances in Accident and emergency**
Boggaram, R G, Audit meeting, Prince Philip Hospital, Wales, 19 December 2006.
5. **Post operative bleeding after tonsillectomy**
Boggaram, R G, Amin, H, Joint Audit meeting, Grimsby and Scunthorpe Hospitals,
Diana, Princess of Wales Hospital, Grimsby.
6. **Documentation in ENT case notes**
(Continuation of the cycle), Boggaram, R G, Amin, H, Bellini, M, Diana, Princess of
Wales Hospital, Grimsby.
7. **Sinus headache a presentation**
Boggaram, R G, Amin, H, Surgical meeting, Diana Princess of Wales Hospital, Grimsby,
October 2004.
8. **Frontal sinusitis, a case report**
Boggaram, R G, Amin, H, Surgical meeting, Diana Princess of Wales Hospital, Grimsby, Octo-
ber 2004.

9. **Direct referrals to audiology**

Boggaram, R G, Capper, R, Audit meeting, Doncaster Royal Infirmary, November 2003.

National and International Presentations

1. **Blood Transfusion CEM Conference 2013**

Poster presentation on Blood transfusion audit

2. **Direct referrals to audiology, a poster presentation**

Capper, R, Glore, J, Boggaram, R G, 42nd South African National ENT, Meeting & British Association of Otolaryngologist-Head & Neck Surgeons, Cape Town, South Africa, 8-11 October 2006.

3. **Laryngeal photography, a poster presentation**

Reddy, E M, Boggaram, R G, Basavaraj, S, Poster, BACO 2006.

4. **History of laryngeal photography**

Basavaraj, S, Somashekar, Boggaram, R G, IFOS XVIII IFOS World Congress, Rome, Italy, 29 June 2005.

5. **Concha bullosa an unusual presentation**

Kulkarni, P, Boggaram, R G, IX APICON 2002 and XXI AOIKCON 2002, Bangalore, India, 2002.

6. **Paper-patch myringoplasty**

Boggaram, R G, Narsimhan, I, IX APICON 2002 and XXI AOIKCON 2002, Bangalore, India, 2002.

7. **Interesting CT scans**

Raj, T, Boggaram, R G, Poster presentation IX APICON 2002 and XXI AOIKCON 2002, Bangalore, India, 2002.

WORKSHOPS & COURSES

Life Support courses

1. **European Trauma Course, Newcastle.**
ETC, 22 April'16
2. **Advanced Life Support**
Resuscitation Council (UK), 12 July'15
Instructor in ALS
3. **Emergency paediatric life support**
Resuscitation Council (UK), 10 Oct'14
Instructor in EPALS
4. **Advanced trauma life support**
The Royal College of Surgeons of England, 31 Jan'12

Clinical Courses and Workshops (Relevant to EM)

1. **OSEM Conference.** 10 Dec 2017 One day Oxford deanery conference
2. **Educational supervisor Course.** 23 Feb 2016 Health Education Thames valley
3. **Level 1 Ultrasound Finishing School.** Dec 2014, Severn Deanary, Bristol
4. **Train the Trainers.** 20 Sep 2011, RUH, Bath
5. **ECG for A&E Doctors.** 16 July 2011, London

6. **CEM Paediatric Emergency Medicine** Birmingham Children's Hospital, 7 January 2011
7. **Advanced paediatric life support.** Royal Gwent Hospital, 15 June 2010 to 16 June 2010.
8. **Pre-hospital care and retrieval course.** University Hospitals Coventry and Warwickshire NHS Trust, 13 April 2010 to 14 April 2010.
9. **Paediatric emergency care.** NHS Education for Scotland, Edinburgh, 2 November 2008 to 7 November 2008
10. **Ultrasound for Accident and emergency doctors.** The London Chest Hospital, 22 April 2008 to 23 April 2008.
11. **Echocardiogram in Accident and emergency.** Basingstoke, April 2008.
12. **Acute medicine for A&E.** North Hampshire Medical Education Trust, 24 September 2007.
13. **Paediatric emergency medicine.** North Hampshire Medical Education Trust, 5 October 2007
14. **Ultrasound for Accident and emergency.** Conducted by SonoSite Education Centre, Hitchin, Hertfordshire, 22 March 2007.
15. **Accident and emergency trauma radiology course for doctors.** 11 February 2007.
16. **Applied physiology and critical care.** LGH, The Royal College of Surgeons of England, 20 June 2005 to 22 June 2005
17. **Chest X-ray and Abdominal X-ray film interpretation course for doctors.** 12 February 2007.
18. **Clinical pathology and principles of surgery.** LGH, The Royal College of Surgeons of England, 23 June 2005 to 24 June 2005.

19. **Surgical anatomy.** BSMS, Royal College of Surgeons of England, 15 August 2005 to 18 August 2005

20. **Basic surgical skill course.** Royal College of London, May 2004

Non-Clinical Courses

1. **Communication for surgeons**

BSMS, Royal College of Surgeons of England, 19 August 2005.

2. **Basic computer skills (ECDL)**

29 May 2007.

3. **Critical appraisal study day**

25 June 2011. Cardiff

CONFERENCES

1. **Medico-legal Conference** 2019, 14 May 2019, London, UK

2. **RCEM National Conference**, 17-19 April 2018, Cardiff, UK
